Camp Supply International AS

Statement pursuant to the Transparency Act (Åpenhetsloven)

Published: 19 June 2025

Company registration number: 882 722 252

1. General information about the company

This statement pursuant to Act No. 99 of 18 June 2021 on Business Transparency and Work on Fundamental Human Rights and Decent Working Conditions ("Åpenhetsloven") has been prepared by Camp Supply International (CSI).

The company is subject to the Transparency Act and actively works to ensure respect for fundamental human rights and decent working conditions within our operations and supply chain.

This statement is provided by CSI pursuant to Section 5 of the Norwegian Transparency Act.

CSI produces high-quality, container-based solutions for a wide range of camp infrastructure requirements. We supply specially designed and equipped units for kitchen, sanitation and laundry use, as well as living quarters and office space. If you need a laboratory, workshop or even a kennel, we have a purpose-built unit that is perfect for the job. We also supply water purification systems, waste incinerator systems and various reefer systems. All our containers are equipped with a specially developed leveling system that enables optimal height adjustment in the field.

CSI employees are all highly experienced in their particular fields. Through participation in peace-keeping missions in Bosnia, Kosovo, Macedonia and Afghanistan, our company has amassed a wealth of expertise in war-zone working methods. This includes logistics and security, as well as project planning and implementation to extremely tight deadlines.

The ability to improvise and think "outside the box" is essential in countries whose infrastructure has collapsed. This is one of CSI's major strengths. We keep up to date with whatever new developments and relevant advances occur within our industry. Our company's ownership structure and financial stability guarantee maximum reliability and optimal deliveries. CSI is certified in accordance with ISO 9001:2008 and 14001:2004.

The company has 16 employees and had a turnover of NOK 111.5 million in 2024. At the time of reporting, we own the subsidiary Camp Supply Asia.

2. Policies and Procedures

The company has established guidelines for ethical trade, supplier follow-up, and procurement. We also have internal policies that include a whistleblowing channel and ethical principles for employees and business partners. We refer to our Code of Conduct, which is published on our website and in our management system.

3. Due Diligence Assessments

In accordance with the OECD Guidelines, we have carried out a due diligence assessment following these steps:

- Mapped the supply chain and identified potential risks
- Assessed the severity and likelihood of negative impacts
- Prioritized risk areas requiring action

Findings:

The due diligence assessment did not uncover any deviations or issues requiring corrective measures.

4. Measures Implemented

- Strengthened structure for enforcing contractual requirements and supplier follow-up
- Planned audit of a selected supplier in Q3 2025

5. Plans for Further Work

We will continue our efforts through:

- Systematic risk assessments conducted annually
- Training of employees in ethical trade and responsible procurement
- Reporting and open dialogue with stakeholders

6. Duty to Provide Information

Upon request, we provide detailed information on how we handle specific matters related to
